CAREER OBJECTIVE

Aspiring Machine Learning Engineer with strong foundations in Python, Data Structures & Algorithms, and ML frameworks. Skilled in building end-to-end ML pipelines and deploying applications. Seeking entry-level opportunities to apply problem-solving skills and grow into impactful AI/ML roles.

TECHNICAL SKILLS

Programming: Python, Java, SQL

AI / ML: PyTorch, TensorFlow/Keras, scikit-learn, Mask2Former, MobileNetV2, CNN, SMOTE, OpenCV

MLOps & Tools: ZenML, Weights & Biases, Git, GitHub, Docker, VSCode, PyCharm, Jupyter Notebook

Data & Web: NumPy, Pandas, Matplotlib, Albumentations, Streamlit, HTML, CSS, REST APIs

PROJECTS

Railway Track Defect Detection | *PyTorch, Mask2Former, Streamlit, ZenML, W&B* |  GitHub

- Fine-tuned Mask2Former transformer for instance segmentation of 5 railway defect classes; deployed Streamlit web app for real-time visualization.
- Built ZenML pipeline with MobileNetV2 two-stage training; tracked experiments with Weights & Biases logging mIoU and loss metrics.
- Implemented YOLO-format polygon label parsing and OpenCV-based segmentation mask rendering with per-class confidence scores.
- Designed modular src layout with pipelines, steps, and training modules; managed codebase with Git and GitHub.

Fraud Detection System | *Python, Random Forest, scikit-learn, SMOTE* |  GitHub

- Built multi-model pipeline on 100,000+ records; applied SMOTE boosting minority recall from 54% to 91% for fraud prevention.
- Validated models using ROC-AUC, F1-score, and 5-fold cross-validation; engineered features through in-depth EDA.
- Designed modular production-ready pipeline (ingest, preprocess, train, evaluate, report) with clean code and plug-in architecture.
- Visualized evaluation metrics using ROC curves, confusion matrix, and precision-recall plots for model comparison.

INTERNSHIP

AI/ML Intern – Skill Dzire (AICTE Certified)

May 2025 – Jun 2025

Hyderabad, India

- Trained supervised and unsupervised ML models; performed end-to-end data preprocessing improving model F1-score by 12%.
- Applied PCA and feature selection, reducing training time by 30% with no accuracy loss.

EDUCATION

B.Tech in Computer Science Engineering (AI & ML)

Expected June 2026

Raghu Engineering College, Visakhapatnam

CGPA: 8.05 / 10.0

Diploma in Computer Engineering

2023

Sri YVS & Sri BRM Polytechnic, Mukteswaram

Percentage: 73.75%

ACHIEVEMENTS & CERTIFICATIONS

Solved **150+ LeetCode problems**; earned *50 Days Badge 2025* and *August Badge 2025* demonstrating strong DSA skills.

Certifications: *Software Testing Masterclass – Novice to Expert (Udemy)*, *AI Internship (AICTE Certified)*.
