SUMMARY

B.Tech graduate specializing in Artificial Intelligence and Machine Learning with hands-on experience in Python, Machine Learning, NLP, and Data Analysis through projects and internship. Passionate about building data-driven solutions and seeking an entry-level Data Science role to apply analytical and AI skills while contributing to impactful business outcomes.

EDUCATION

B.Tech in Computer Science Engineering (AI & ML) <i>Raghu Engineering College, Visakhapatnam</i>	<i>Jun 2026</i> <i>CGPA: 8.23 / 10.0</i>
Diploma in Computer Engineering <i>Sri YVS & Sri BRM Polytechnic, Mukteswaram</i>	<i>2023</i> <i>73.75%</i>

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL
Computer Vision: Computer Vision, Image Processing, Image Segmentation, Semantic Segmentation, Instance Segmentation, Mask2Former, CNN, Vision Transformer
Deep Learning & AI: Deep Learning, Model Training, Model Optimization, Neural Networks, Transfer Learning, Model Evaluation
Frameworks & Libraries: PyTorch, TensorFlow, OpenCV, Scikit-learn, NumPy, Pandas
Deployment Technologies: FastAPI, REST API, Inference Pipeline, Model Deployment
Developer Tools: Git, GitHub, Linux, VS Code

PROJECTS

AI Guard Detection - Railway Track Defect Detection | *Python, PyTorch, Mask2Former, OpenCV*

- Developed a deep learning-based computer vision system for automated railway track defect detection using transformer-based segmentation models.
- Implemented Mask2Former architecture for accurate pixel-level image segmentation and defect localization.
- Built image preprocessing pipelines using OpenCV including resizing, normalization, noise reduction, and image enhancement.
- Trained and evaluated deep learning models using PyTorch with optimized inference pipelines for real-time detection scenarios.

Healthcare AI Assistant | *Python, Transformers, NLP, FastAPI* | GitHub

- Built an AI healthcare assistant for symptom, medication, diagnosis, and appointment-related queries.
- Implemented intent classification and **Named Entity Recognition (NER)** for clinical text processing.
- Developed REST APIs using FastAPI for seamless healthcare application integration.
- Improved response accuracy through prompt engineering and structured medical context.

INTERNSHIP

AI/ML Intern <i>Skill Dzure (AICTE Certified), Hyderabad</i>	<i>May 2025</i> <i>Jun 2025</i>
- Trained supervised and unsupervised ML models end-to-end; improved model F1-score by 12% through preprocessing. - Applied PCA and feature selection, cutting training time by 30% with zero accuracy loss. - Performed data cleaning, handling missing values and outliers to improve dataset quality.	

ACHIEVEMENTS & CERTIFICATIONS

LeetCode: Solved **190+** problems earned *50 Days Badge 2025* and *August Badge 2025*.
AI/ML Internship (AICTE Certified, SkillDzure).
Generative AI Virtual Experience Program (Forage).
